Labeling & Inventory

Labeling for Chemical Laboratories

- Proper labeling is mandatory for all samples:
 - Contents and concentration;
 - Solvent (if applicable);
 - Hazard statement (e.g., “flammable” or “toxic”);
 - Date created; &
 - Your initials.
- Use a spreadsheet to manage your laboratory inventory:
 - Chemical name;
 - Amount (mass/volume);
 - Date opened/received;
 - Storage location; &
 - The link to the MSDS form.
