Digital Security

Strategies to Stay Safe Online

- Phishing
 - Login and Password
 - Personal information
- Reduce reused passwords
 - Can be compromised and published on "dark web"
 - Use Password Managers (e.g., LastPass or 1 Password)
- Don't send credit card information over email
- VPN
 - Protect yourself on public networks
- Downloads
 - Get downloads only from trusted vendors at their sites
 - Look for lock symbol and https
- Apply Updates
